

Professional streetlight luminaire for LED light sources.

TECHNICAL DATA

Mounting: on pillar $\varnothing 60/48\text{mm}$, on pillar $\varnothing 76\text{mm}$ - modification .829, on outriggers $\varnothing 60/48\text{mm}$, on outriggers $\varnothing 76\text{mm}$ - modification .829

Body: high pressure die-cast aluminum

Lateral Surface Wind Exposed: 0.039 m²

Colour: gray

Diffuser: tempered glass

ELECTRICAL DATA

Power supply efficiency: >95%

Power: 220-240V 50/60Hz

Includes light source: yes

Type of equipment: ED, DALI/ED

Electrical connection: max 3x2,5 mm² wire, max 2x2,5 mm² wire, max 3x2,5 mm² / 5x2,5 mm² wire, max 2x2,5 mm² / 4x2,5 mm² wire

OPTICAL DATA

Way of lighting: direct

Type of optic: O33 - for express roads, O34 - for local roads, O35 - for town roads, O36 - for residential area roads, O37P - for pedestrian crossings, right side traffic, O37L - for pedestrian crossings, left side traffic, O38 - for area lighting, O39 - for town and local roads, O40 - for wet surfaces, O13 - for express roads, O14 - for local roads, O15 - for town roads, O16 - for residential area roads, O2 - for express roads, O3 - for local roads, O4 - for town roads, O5 - for residential area roads, O6P - for pedestrian crossings, right side traffic, O6L - for pedestrian crossings, left side traffic, O7 - for area lighting, O8 - for town and local roads, O26 - for wet surfaces, O59 - for local roads, O60 - for town roads, O61 - for residential area roads, OP2

ULOR / DLOR: 0% / 100%

GENERAL DATA

Lifetime LED (L90): 100 000 h

Available on request: DALI, DIM 1..10V, LLOC, twilight sensor, knife switch, 10kV surge protection, NTC

Additional information: Tilt adjustment: -15° to +15° (every 5°), CRI/Ra >70

Additional equipment: additional anti-corrosive protection (index extension: .985), access to the driver chamber without the use of tools (index extension: .825), luminaire with holder for mounting on a $\varnothing 76\text{mm}$ pillar (index extension: .829)

Other remarks: the pole and boom are not part of the luminaire

Warranty: 5 years

Application: express roads, local roads, town roads, residential area roads, pedestrian crossings, area lighting, avenues, promenade, cycle paths, public spaces, parking areas

Type: O13, O14, O15, O16 optics							

* Lower temperature range: -40°C to -20°C, depending on the type of power supply used (consultation with the LUG Technical Preparation of Production Branch is required).

Please note that the standard luminaire is not intended for use in an environment with an increased corrosivity category. The use of the luminaire for work in an environment for which additional corrosion protection is necessary requires the use of an index with the extension .985 (on request).

In order to apply the luminaire in an aggressive environment, for example with an increased concentration of sulfur, salt or other aggressive substances, a consultation with the LUG Technical Preparation of Production Branch is required.

Luminous flux tolerance +/- 10%.

Power tolerance +/- 5%.

Lighting beam, light intensity distribution and light efficiency were examined in accordance with the EN ISO 17025:2005 norm for EN13032 norm series and the LM-79 norm.

Up-to-date product info and General Warranty terms available on our website www.luglightfactory.com

Detailed information on luminous fluxes and powers for individual indexes are indicated on the product data sheet.

The parameters in the data sheet are given for Ta=25°C.
